

School of Computer Science and Engineering (SCOPE)
BACSE291 – Innovative Design Project
B.Tech. (CSE & Specialization)
Academic Year 2026–2027

Project Review Schedule and Evaluation Criteria

Reviews	Type	Submission / Deliverables	Project Status	Tentative Date / Schedule	Marks
Zeroth Review	Guide Review	Title and Abstract	- Background of the Problem - Title and Abstract of the Project	On or Before September 7, 2026	5
1st Review	Panel Review	Domain knowledge, Literature survey, research gaps and Objectives	- The review will focus on the student's domain knowledge, literature review, identification of research gaps, and formulation of objectives. - Review will be conducted offline	October 7 & 14, 2026	20
2nd Review	Panel Review	60% Implementation of the proposed Methodology with a complete design	- The progress of the project will be reviewed, and the presentation should cover the following aspects: ➤ Project Plan ➤ Analysis & Requirements ➤ System Design ➤ Proposed Methodology - Review will be conducted offline.	January – 2nd/3rd Week, 2027	30
Project Report	Guide Review	Final report verification and approval	Submission of the report and the rough draft of the outcome	On or Before March 15, 2027	5
Final Review	Panel Review	Complete presentation with code and demo with outcome achieved proof	Presentation of entire work to external examiners.	Last Week of March 2027 (Tentative)	40
Total				100	

Outcome Analysis

S. No.	Outcome / Achievement	Achievement level	Marks
1	Publication in Scopus-indexed journal	Published / Accepted for publication	10
		Under review	8
		Communicated	4
2	Publication in Scopus-indexed conference	Paper presented	10
		Communicated	5
3	Patent	Patent published	10
		Patentability Search Result - Approved	7
		Patent IDF submitted	3
4	Hackathon / Project contest organized by a reputed organization	Winner / Runner / Finalist	10
		Shortlisted	6
		Participation	4
